IMPORTANT TO FIRST VOTERS.

An important new provision in the primary law and one of particular interest to the young voters, is that a man who will be twenty-one years of age by the date of the regular election, November 3, will be entitled to vote in the primary which will be held August 1. Under the primary law, as originally framed, the first voter could not vote in the primary if he became of age after the preceding regular election before the primary. The change may increase the voters by several hundred.

EXCURSION TO FRANKFORT.

ENDORSES SUGGESTION FOR CONCERT AT FAIR GROUNDS.

The following letter was received recently at this office, in which the writer, who wishes her name withheld, approves of the suggestion recently made by the News that the directors of the Fair Association utilize the grounds for a series of musical concerts, etc.

"Paris, Ky., July 18, 1914.

"Ed. The News:—
"I am in hearty accord with the article which shortly appeared in The News suggesting the use of the Bourbon County Agricultural Society's grounds for the purpose of affording summer amusements for the people of Paris. This would be especially appreciated by workers of the city whose amusements are necessarily limited to what little is afforded during the week. After the motion picture houses close at night Paris is like a grave yard. But it is on Sunday practically the only time the worker has for a little relaxation that he or she would like to get away from the dull routine and be and have something different. I am one of the latter and I know from my own experience that this is a dull burg on Sunday. A sacred concert at the Fair Grounds Sunday afternoons would be a blessing and would no doubt be hailed with delight by those whose occupations keep them from having much pleasure through the week. There could be nothing in such a scheme to conflict with religious observance of the day. I sincerely hope some action may be taken in the matter and that we will be able to hear some good music soon, in the open air, where the enjoyment will be increased tenfold by the novelty of the surroundings.

HUNTERS MAKING PREPARATIONS FOR DOVE SEASON.

The sportsmen of Paris and Bourbon County are now making their arrangements to take a vacation in August in order to take advantage of the dove season, which opens August 1. Prospective hunters have been busy hunting up their licenses and the guns which had been stowed away in closets and in attics are being brought out and furbished (whatever that means) and supplies of shells renewed. Owing to the long dry summer the dove crop is said to be larger and better than for many years, and the all-important question is where are they the most plentiful?
